????????

Technical characteristics:

- Rated voltage: 12/230V, 50/60 Hz;
- Insulation voltage: 660V, 50/60 Hz;
- Options for light and sound indication
- Impulse voltage withstand: 6000V
- Rated power: 6-28W
- Short circuit protection: 1A gG external fuse
- Operating temperature: -20°C - +70°C
- Humidity: 35-85% RH
- Plastic cover: UV resistant polycarbonate

Warning lights are offered individually in yellow, green and red colours, and the warning towers – in a combination of up to 5 colours: green, yellow, red, blue and white.
